

KEYSTONE

A social gathering...at last!

08 OCTOBER, 2021

It was fabulous to see such a great turn out at our second anniversary bash at the Royal Automobile Club and even the weather was kind to us. A big thank you to everyone for supporting the event, it was so good to catch up in person with clients, business associates and friends of Keystone, after not having had such opportunities for many months.

Thanks also to our guest speakers Ahmet Feridun of Cazenove Capital who addressed the burning question on everyone's mind on whether the current high inflation will be deep rooted or transitory and to Nimesh Shah of Blick Rothenburg for speculating on ways the chancellor of the exchequer might look to raise tax revenues to pay for the pandemic relief measures.

And finally, a huge thanks to Sahana Gero MBE and the students of the World Heart Beat Music Academy for putting on a wonderful performance for all our guests. We are thrilled to be working closely with such a fantastic charity and to help raise awareness of the fabulous work that they do. If you would like to find out more about them, please visit <https://worldheartbeat.org>

Here's to more such anniversary get-togethers in years to come.
